The bad news for me is that I am experiencing at least a 4 ½ hour delay getting out of DC. The good news for you is that I had time to review the current version of the lead strategy and sent it to Doug. I hope to hear back from him in time for it to be shared on Monday with the state water directors. Finger crossed. Attached are my minimal comments. Great work by all of you! Thank you.

Subject: Re: Draft R8 Lead Action Plan

It will be a challenge to turn this around in time to share prior to the Tuesday Water Directors meeting. I will try to review the revised draft and discuss with Doug on Monday.

Hi Deb.

Attached is the revised version of our Draft R8 Lead Action Plan. All of our contributing programs have provided comments and edits and their feedback is incorporated. We hope you find this version ready for Doug's review.

Our Drinking Water Program will be meeting with the State Drinking Water Directors next Tuesday, the 17th and would like to provide a copy of this full document to them. Recall, the early version of the Drinking Water section was shared with the State Drinking Water Directors to elicit their support for proposed future actions. We would like Doug's approval to share the full document with this audience. Ideally, they would like to share it prior to the meeting (by this Friday or next Monday if possible) so the Directors will have an opportunity to review it before meeting collectively on Tuesday.

Please let me or the members of our workgroup know if we can be of further assistance at this point.

Thank you,

-m
